And more and more and  
so much more...

# Cross country skiing

We often find the quantity of snow varies greatly from week to week and winter to winter. So, with that in mind, cross country skiers are a frequent sight at Beauvais during the winter. They enjoy the many miles groomed trails and the lake.

# Snowshoeing

The great snow gets enjoyed by skiers and the snowshoers too. The variety of terrain available makes for an enjoyable day for the novice and the experienced enthusiast.

Respect for the trails and the different sports makes everyone's time more enjoyable.

# Ice fishing

Beauvais Lake is a premier ice fishing location.

Remember the proper licences

# Camping

Winter camping presents its challenges. But with the proper gear can be most rewarding. Camp site use is subject to snow and road conditions.

Non-potable water is available at boat launch only.

Not all campsites are available for winter camping.
