

THE BULLFROG ebuzz

May 2017

Share on social media to help fund a new Canadian solar project!

Want to continue to make a difference for the environment? We're currently running an online sharing campaign to help fund the construction of solar panels at [OrcaLab](#), a marine research centre on Hanson Island, B.C.

[Visit our page](#) and share one of the images with your social networks—when you do, Bullfrog will put \$1 toward OrcaLab's solar panels. The initiative will help the marine research centre double its solar power capacity. Be sure to share with your friends!

Plus: want to show your support for green energy every day? You can [order our free green energy stickers here](#) (pictured above)!

A chocolatier with a passion for community—and a discount for readers

We recently visited bullfrogpowered [Stubbe Chocolates](#) in Toronto to chat about crafting chocolates and supporting communities—and we [wrote a blog post](#) on the experience. Did we mention chocolate? Be sure to [read more](#) about the delicious chocolates we sampled and to learn about a special offer!

Edmonton schools show environmental leadership

In an April event organized by the bullfrogpowered [Alberta Council for Environmental Education](#) (ACEE), students from 20 Edmonton schools showcased their schools' climate leadership initiatives. Alberta's Minister of Education, David Eggen, attended the event, in addition to other government staff and school board trustees. Learn more about ACEE's efforts to show [150 Ways Schools Show Climate Leadership](#).

Five things to know about Ottawa's carbon pricing plan

Bullfrog partner [Clean Energy Canada](#) analyzed the federal government's recently announced proposal to price carbon across the country—and [highlighted five elements of the proposal](#) that could inform how a carbon pricing system could be implemented across Canada. Interested to learn more? [Read on](#).

Green business insights shared at Sustainability Snapshot

In April, Bullfrog hosted its second annual Sustainability Snapshot event, an evening of learning and networking for sustainability professionals in Toronto. Sponsored by [Ontario Lottery and Gaming Corporation](#), the event featured sustainability leaders who spoke about how businesses can play a role in helping Canada transition to a low-carbon economy. [Watch our video recap!](#)

Bullfrog helps Munich Re celebrate Earth Week

During Earth Week, Bullfrog joined [Munich Re](#) at its bullfrogpowered Munich Re Centre at 390 Bay Street to educate tenants and staff about the organization's support for renewable energy. Visitors were challenged to green energy trivia questions for the chance to receive white spruce tree seedlings or gift cards, courtesy of bullfrogpowered Propeller Coffee.

Flow chooses clean electricity for its clean water

[Flow Water](#), known for its packaged spring water, [is now choosing 100% green electricity](#) for its production facility in Aurora, Ontario. Flow's spring water is sourced from the company's family-owned natural artesian spring in Bruce County, and packaged with recyclable, FSC-certified materials. Plus, its brand ambassador is Blue Jays player Josh Donaldson!

Bullfrog welcomes the newest businesses to the community:

Bullfrog Power Inc. 366 Adelaide St. W. Suite 701 Toronto, ON M5V 1R9 Canada
